Pakistan, Lahore, House No 7, 54000

Professional summary

I am a 7th semester Computer Science student with a strong interest in web development, mobile app development, AI, and social media marketing. I have practical experience building websites, developing mobile applications, and creating content for digital platforms. I am also exploring the use of AI in real-world applications, such as chatbots and smart features. I am eager to gain hands-on experience through an internship where I can apply my skills, contribute to innovative projects, and continue learning in a professional environment.
